# BEST WEDDING EVER

Creating the best day ever starts with a Ross Productions DJ. We are known for our customization, creativeness, passion, innovation, and for going above and beyond at everything we do. Sure, there are other DJ companies in our area that do a good job, but they simply can't compete with the standards we hold, nor can they deliver the truly special memories that our talent creates.

When you think of hiring a Wedding DJ, you are probably thinking of someone who can make all of the announcements while playing music. We go far above the standards by planning every single detail with you, putting emergency backup plans in place, truly reading the crowd and knowing what song to play next, creating that fun energy that'll keep everyone on the dance floor all night, and never mispronouncing names or making corny jokes.

A large, energetic crowd of wedding guests is dancing and cheering in a rustic hall with brick walls and arched windows. String lights hang from the ceiling, and colorful stage lights illuminate the scene. Many guests have their arms raised in the air, and a woman in a blue dress is seen shouting with excitement. The atmosphere is festive and celebratory.

## DANCING

Dancing is the **MOST** important part in every wedding celebration. We constantly read the crowd and mix music together to **PACK** the dance floor all night long. No matter what type of music you want, we'll make the magic happen!

**ceremonies.**

## **Custom & Personalized**

Your ceremony music should speak YOU and your vibe. We allow full customization starting with prelude music when your guests are arriving.

## **Remote Locations**

When your ceremony in a bespoke remote location, our battery powered systems will guarantee that your vows are heard no matter where you are.

## **Videographer**

We work directly with your videographer to set up their audio feed to our mixer, capturing the music, prayers, vowels, and pronunciations.

## **Enhancements**

We love customizing everything for you. We offer various enhancements that can transform your ceremony into something even more magical.

**enhancements.**

## **Magical Cold Sparks**

3, 2, 1... Ignite your entrances, launch at the beat drop, or just for the fun of it. Our Cold Sparks will drop jaws, initiate selfies, and create luminous memories.

## UPLIGHTING

The most important type of lighting. Simple, yet very effective way to transform the venue to fit your vibe. When it's time to party, these will change!

## **DANCING ON CLOUDS**

Dancing on the Clouds is a magnificent way to make your first dance POP. Whether you are looking for that fairytale style or pure elegance, these clouds will leave your guests in awe creating a magical moment that will last a lifetime.

A large, illuminated monogram 'P' in a white, elegant script font is projected onto a dark wall. The wall is part of a room with vertical light strips and a warm, yellowish glow from the ceiling lights. Below the monogram, the names 'Jason & Angela' and the date 'September 22, 2018' are also projected in a white serif font, separated by horizontal lines.

## NOTHING SHORT BUT AMAZING!

It's crazy how fast our wedding day went. All in all we're still shocked with how incredible and amazing you made our wedding. From the endless dancing at the reception to the wild after-party, everything was beyond our expectations.

The planning process was really stress free as you said, the lighting was on point, the constant communication was exceptional, the list just goes on and on and on.

Thank you SO MUCH Tyler and the entire Ross Productions team for making our wedding the greatest!

## **Ross Productions is a must!**

Ross Productions exceeded our expectations! We are absolutely thrilled with their professionalism and talent. DJ Tyler and DJ Brandon, our DJ for the wedding, is truly remarkable and it's no wonder they have achieved such great success. We were grateful for their flexibility and constant communication. We made the decision to add a photo booth closer to the wedding date, and we couldn't be happier with that choice. It turned out to be a massive hit, and our guests absolutely loved it!

# THE INVESTMENT

Let's face it, the cost of a wedding varies based on what you want to make of it. It's just like when you're out shopping, or buying a new car.

Like many other Wedding DJs, you may see similar offerings, options, add-ons, and guarantees. Like any service business, comparing company to company, professional to professional, DJ to DJ, they may all look alike, but if you do some research, you will truly see that there is a huge difference between them and us.

Our investments work similarly to how any boutique company operates. We tailor every service and enhancement to your vision to create that leaves you with the greatest day of your life, and memories that'll last a lifetime.
